- Waste

## Dishwashing

### Innovation

Intertegrated dispensing wall system with Irremovable container closure innovation, replaces the use of 10L / 20L drums or solid / powdered formats,

### Performance

The system technology delivers

**1500 +** Rack Washes  
per bottle

without the requirement of  
a water feed, benefiting the  
environment.

SURESAVE®  
OPTIX

### Excellence

SureSave® Optix low detergent to water ratio and machine self-cleaning technology ensures that surfactant or stain residue is prevented from forming, leading to outstanding dishwashing results.

# Dishwashing Consumables

SureSave® Optix VSCOS® Dish (Green Label)

SureSave® Optix VSCOS® Rinse (Blue Label)

SureSave® Optix VSCOS® Pot Plus (Pink Label)

Pack Size: 2 x 3.30L

# Water Conservation Technology

The unique equipment technology ensures a pre-determined dose is dispensed into the dishwasher unit without the requirement of a water feed to dissolve, unlike solid or powdered formats.

SAVE   
WATER 

SURESAVE<sup>®</sup>  
OPTIX  
VSCOS<sup>®</sup> 

Conserving water means using our water supply wisely and responsibly. As every individual depends on water for livelihood, we must learn and know how to use water efficiently.

## Level Indication

The container display system provides simple user management control with low level indication as to when a new container needs to be replaced.

## Closed Secure System

The SureSave® Optix closed arrangement secures and controls its formulation with unrivalled simplicity.

The uniquely calibrated **VSCOS®** low-flow dispensing mechanism, ensures continuous regulated accurate dosing, without the need for a water feed while further benefiting the environment.

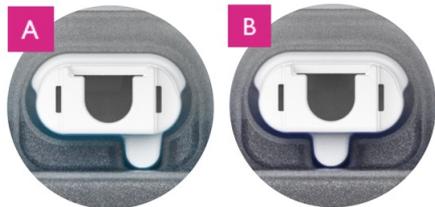

## Flexible Installation

VSCOS® is extremely flexible for installation in either, hood or conveyor dishwasher machines.

The innovative design ensures that excess tubing and connections are hidden away, providing a tidy and non-intrusive professional installation.

## One-Way Container Control

The one-way container be spoke control system safeguards the loading of chemical, eliminating operational error.

## Hood / Conveyor

The wall mounted design is simple and functional, enhancing reliability, performance, ease of use and safety.

The System is compatible with all Hood / Conveyor dishwasher types.
